PREFACE

When we undertook the work for compilation and classification of the foreign collaborations approved in this country, we thought that it should be a simple mechanical job. However, realising the shortcomings of such compilations based upon the secondary source of information, we thought, we must verify the contents before we print. We think—that was the beginning of our very involving and engrossed affair with this assignment. We sent computerised mailings not once but twice to each individual entry seeking their confirmation. More than 7000 letters were sent at a time and we received back not less than 1000 letters correcting the entries collected from the secondary sources. We had to obviously pay for this in terms of time as this totally derailed our schedule. But, then we feel more than rewarded as we have the satisfaction of presenting something first time in the Indian market duly verified on the subject. We hope all those who booked advance orders for this publication with us and also our advertisers will bear with us for this delay. We still feel that we owe an apology to our clientele and patrons alike for whatsoever reason the publication was delayed and say, "We are sincerely sorry for that"

For the work of this nature, where grouping of the entries has been done by adopting the standard groups followed by the DGTD or Ministry of Industry included in the First Schedule to the Industries (Development & Regulations) Act 1951, various sources of input were required to be used. Major amongst them are Indian Investment Centre newsletters, some publications and financial dailies like The Economic Times and Financial Express. We gratefully acknowledge all these sources which helped us making a good beginning in this line. We also will like to place on records our sincere thanks to those companies who took pains to go through the entries circulated to them and corrected us or confirmed the information.

Any printing job of this nature is bound to be tedious and but for a very sincere and painstaking effort by Shri Kantibhai Patel of Shreeji Krupa, this publication would not have been in the present shape. We acknowledge him for the good work done.

And finally, we are grateful to large number of our patrons and advertisers who have supported this publication. We hope this will be a very useful reference book in the hands of our readership.

INDEX

1. Metallurgical Industries	1
A. Ferrous	
Iron and Steel (metal), Ferro-alloys, Iron and steel castings and forgings, Iron and steel structurals, Iron and steel pipes, Special steels, Other products of iron and steel	
B. Non-ferrous	
Precious metals, including gold and silver and their alloys, Other non-ferrous metals and their alloys, Semi-manufactures and manufactures	
2. Fuels	53
Coal, lignite, coke and their derivatives, Mineral oil (crude oil), motor and aviation spirit, diesel oil, kerosene oil, fuel oil, diverse hydrocarbon oils and their blends including synthetic fuels, lubricating oils and the like, Fuel gases (coal gas, natural gas and the like)	
3. Boilers and Steam Generating Plants	59
4. Prime Movers other than Electrical Generators	67
Steam engines and turbines, Internal combustion engines	
5. Electrical Equipment	77
Equipment for generation, transmission distribution of electricity including transformers, Electrical motors, Electrical fans, Electrical lamps, Electrical furnaces Electrical cables and wires, X-ray equipment, Electronic equipment, Household appliances such as electric irons, heaters and the like, Storage batteries, Dry cells	
6. Telecommunications	171
Telephones, Telegraph equipment Wireless communication apparatus, Radio/receivers, including amplifying and public address equipment, Television sets, Teleprinters	
7. Transportation	229
Aircraft, Ships and other vessels drawn by power, Railway locomotives Railway rolling stock, Automobiles (motor cars, buses, trucks, motor cycles, scooters and the like), Bicycles, Others, such as fork lifts and the like	
8. Industrial Machinery	279
A. Major items of specialised equipment used in specific industries	
Textile machinery (such as spinning frames, carding machines, power-looms and the like) including textile accessories, Jute machinery, Rayon	

machinery, Sugar machinery, Tea machinery, Mining machinery, Metallurgical machinery, Cement machinery, Chemical machinery, Pharmaceuticals machinery, Paper machinery

B. General items of machinery used in several industries, such as the equipment required for various "unit processes"

Size reduction equipment-crushers, ball mills and the like, Conveying equipment-bucket elevators, skip hoists, cranes, derricks and the like, Size separation units-screens, classifiers and the like, Mixers and reactors-kneading mills turbo mixers and the like, Filtration equipment-filter presses, rotary filters and the like, Centrifugal machines, Evaporators, Distillation equipment, Crystallisers, Driers, Power driven pumps-reciprocating, centrifugal and the like, Air and gas compressors and vacuum pipes (excluding electrical furnaces), Refrigeration plants for industrial use, Fire fighting equipment and appliances including fire engines

C Other items of Industrial Machinery

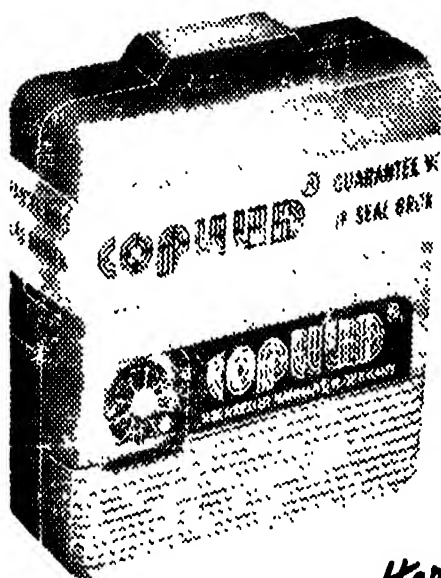

Ball, roller and tapered bearings, Speed reduction units, Grinding wheels and abrasives

9. Machine Tools	481
10. Agricultural Machinery	507
Tractors, harvestors and like, Agricultural implements	
11. Earth moving Machinery	513
Bulldozers, dumpers, scrapers, loaders, shovels drag lines, bucket wheel excavators, road rollers and the like	
12. Miscellaneous Mechanical and Engineering Industries	519
Plastic moulded goods, Hand tools, small tools and the like, Razor blades Pressure cookers, Cutlery, Steel furniture	
13 Commercial, Office and Household Equipment	
Typewriters, Calculating machines, Air conditioners and refrigerators vacuum cleaners, Sewing and knitting machines, Hurricane lanterns	565
14. Medical and Surgical Appliances	
Surgical instruments-sterilisers, incubators and the like	583
15. Industrial Instruments	589
Water meters, steam meters, electricity meters and the like, Indicating, recording and regulating devices for pressures, temperatures, rate of flow, weights, levels and the like, Weighing machine	

16. Scientific Instruments	609
17. Mathematical, Surveying and Drawing Instruments	613
18. Fertilisers	615
Inorganic fertilisers, Organic fertiliseres, Mixed fertilisers	
19. Chemicals (othar than Fertilisers)	619
Inorganic heavy chemicals, Organic heavy chemicals, Fine chemicals Synthetic resins and plastics, Paints, varnishes and enamels, Synthetic rubbers, Man-made fibres including regenerated cellulose-rayon, nylon and the like, Coke oven by-products, Coal-tar distillation products like naphthalene, anthracene and the like, Explosives including gun powder and safety fuses, Insecticides, fungicides, weedicides and like, Textile auxiliaries Sizing materials including starch, Miscellaneous chemicals	
20. Photographic Raw Film and Paper	681
Cinema film, Photographic amateur film, Photographic printing paper	
21. Dye-stuffs	683
22. Drugs and Pharmaceuticals	687
23 Textiles (including those dyed, printed or otherwise processed)	699
Made wholly or in part of cotton, including cotton yarn, hosiery and rope Made wholly or in part of jute, including jute twine and rope, Made wholly or in part of wool, including wool tops, woollen yarn, hosiery, carpets and druggets, Made wholly or in part of silk, including silk yarn and hosiery, made wholly or in part of synthetic, artificial (man-made) fibres, including yarn and hosiery of such fibres	
24 Paper and Pulp including Paper Products	
Paper-printing, writing and wrapping, Newsprint, Paper board and straw board, Paper for packaging (corrugated paper, kraft paper, paper bags, paper containers and the like), Pulp-wood pulp, mechanical, chemical, including dissolving pulp	715
25. Sugar	723
26. Fermentation Industries	
Alcohol, Other products of fermentation industries	725
27. Food Processing industries	729
Canned fruits and fruit products, Milk foods, Malted foods, Flour, Other processed foods	

28. Vegetable Oils and Vanaspati	737
Vegetable oils, including solvent extracted oils, Vanaspati	
29. Shops, Cosmetics and Toilet Preparations	739
Soaps, Glycerine, Cosmetics, Perfumery, Toilet Preparations	
30. Rubber Goods	741
Tyres and tubes, Surgical and medical products including prophylactics, Footwear, Other rubber goods	
31. Leather, Leather Goods and Pickers	757
32. Glue and Gelatin	763
33. Glass	765
Hollow ware, Sheet and plate glass, Optical glass, Glass wool, Laboratory ware, Miscellaneous ware	
34. Ceramics	775
Fire bricks, Refractories, Furnace lining bricks—acidic and neutral, China ware and pottery, Sanitary ware, Insulators, Tiles, Graphite Ceramics	
35. Cement and Gypsum Products	789
Portland cement, Asbestos cement, Insulating boards, Gypsum boards, wall boards and like	
36. Timber products	799
Plywood, Hardboard, including fibre-board, chip-board and the like, Matches, Miscellaneous (furniture components, bobbins, shuttles and the like)	
37. Defence Industries	803
Arms and ammunition	
38. Miscellaneous Industries	805
Cigarettes, Linoleum, whether felt-based or jute-based, Zip fasteners, Oil stoves, Printing, including litho printing industry

AIR-COMPRESSOR

- 1 40% Power saving in Consumption due to high precision material used and decreased efficiency loss
- 2 Efficient working due to simplicity in the mechanism
- 3 Simplicity & excellent compliance added maximum possible efficiency

- 4 Easy maintenance
- 5 Low noise level
- 6 Check and detect on looking
- 7 One guarantee for any manufacturing defect
- 8 Due to excellent service trained firm & experts still available
- 9 Easily available spare parts
- 10 In double piston single stage compressor separate non return valve provided on each cylinder for getting high efficiency
- 11 Crank shaft made from SG grade material & well balanced
- 12 Connecting Rod made from SG grade material
- 13 Strip valve made from imported Sandvik material due to this quick & smooth operation get high efficiency
- 14 During manufacturing every stage inspection carried out by well experienced technician
- 15 In 0.5 HP & 1 HP castor wheel fitted for easy movement
- 16 Piston made from high quality die cast Aluminium & ring from high grade quality of Spring material due to this heat generation minimum and power loss reduced
- 17 Fly wheel design on such fashion for giving collective air cooling
- 18 Automatic Pressure switch control pressure and avoiding any accident and power loss
- 19 V Belt drive makes alignment easier smoother noise free and effective
- 20 Suction air filter have made from Aluminium and easily removeable for cleaning and inside air filter cloth made from 1.2" thick woolen material for better clean air suck

*Real freshness fresh
the of the day*

Real freshness. Not the short-lived freshness you get from other soaps. But the freshness of being free from body odour -- the whole day through! That's the promise only new Cinthol can keep.

Cinthol now has an exotic new perfume and its effective deodorant destroys skin bacteria leaving you fresh and odour-free all day.

Only CINTHOL
keeps you fresh and free from body-odour all day

high national priority.*

At the heart of our enterprise is our commitment to enter into areas of high technology and national priority. This is reflected in the business ideas we conceive

leprosy, we have developed market leadership, world-wide in Ethambutol Hydrochloride; nation-wide in Rifampicin.

In agro-chemicals, our products are actively working for pest-free fields and farms, apart from improving crop yields.

Meanwhile, newer ideas are continuously tested in our R&D Centre/QC Laboratory with the objective of improving the welfare of mankind.

Your ideas blossom with GIIC !

It is only natural that bees seek out flowers. Men of ideas gravitate to GIIC the same way when they think of launching their own industry. With GIIC expertise their ideas are bound to blossom. Hand in hand with entrepreneurs GIIC has already helped set up their OWN industries.

Over 2500 large and medium scale industries have been financed so far with a sanctioned investment of Rs. 250 crores, generating an investment of another Rs. 900 crores. 11 Projects costing Rs. 70 crores are on stream and 60 other projects are at various stages of implementation. Engineering, Petrochemical, Pharmaceutical, Leather Processing, Electronics are some of the industries already set up. Acrylic Cresols, and Polybutenes industries were set up for the first time in India.

Many are joint sector projects with investment ranging from Rs. 25 crores to Rs. 50 crores and in technical collaboration with wellknown foreign companies. And these are bound to generate an investment of about Rs. 1000 crores, creating job opportunities for lakhs of people !

May be **you** have a viable project plan. Come, GIIC will support you to the hilt.

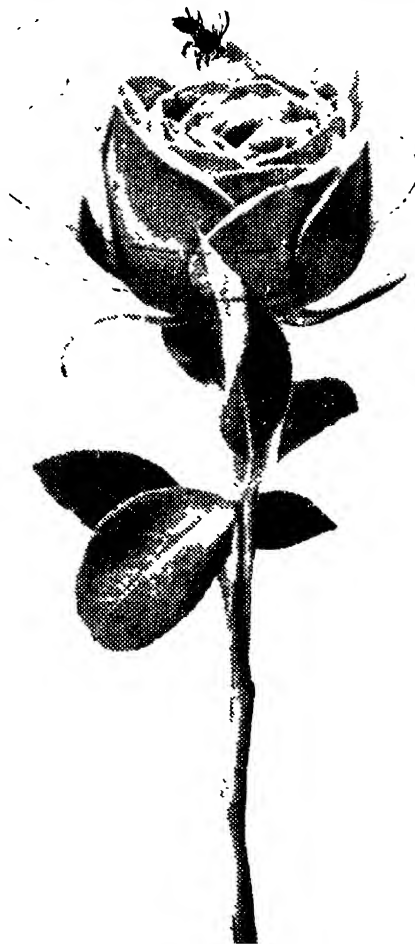

GIIC — basic to Gujarat's industrial development !

You cannot do better than RELY on a *masibus* UNICAL 3001 D.C. Calibrator

The first of its kind in India. A cost effective, and reliable import substitute for process instrument calibration.

Salient Features

- * Choice of simulating or measuring 7 ANS standard thermocouple types and Pt-100 in °C
- * Microprocessor based linearised design for long term accuracy and reliability
- * Software controlled AUTO CALIBRATION LOOP ensures long term accuracy
- * Also measures and simulates DC mV and mA
- * Facility for factory programming to include two additional thermocouples & RTD types each, as per customer's standards
- * Automatic selectable Cold Junction Compensation, built-in
- * Mains or built-in rechargeable battery operated
- * Suitable for field and laboratory work

Our user profile includes Taylor Instruments, IPCL, GNFC, MICO, TISCO, UPSEB, Hindustan Motors, etc.
Backed by a dependable service network

Technology—the catalyst for betterment.

Most of what he has achieved today, Man owes to the advances generated by science and technology. Science is the very basis of Man's existence. Technology is no less vital.

Manufacturing five basic organic chemicals essential to make countless items of daily use, is but one facet of Herdillia's involvement in distributing the benefits of

technology to a demanding society. Others are: energy conservation, pollution control, rural development, treatment of waste and by-products to increase their utility and value, employee welfare and safety. Each—individually and collectively—helping to make life better. More livable. For everyone.

When it's Citric Acid it has to be Citurgia.

The name Citurgia is today synonymous with Citric Acid of the finest quality. Citurgia caters to more than just one need in more than just one industry. Besides the traditional usage of Citric Acid in food soft drinks, confectionery and drugs, today the uses of Citric Acid extend to new areas.

* In the textile printing and dyeing industry it provides 'STABLE' pH conditions for polyester and nylon. As also for acrylic prints curing and cotton-resist printing. Citric Acid has successfully replaced imported Tartaric Acid because of its excellent quality.

low costs and easy availability. Also, it is a very safe acid compared to other organic and inorganic acid salts.

* Citric Acid prevents flavour deterioration, rancidity and discoloration in edible oils.

* It imparts an acidic taste to dry powdered drinks.

* It is also used as a descaling solution.

Citurgia Biochemicals Ltd. is the largest producer of high quality Citric Acid in India.

Besides catering to the domestic demand

Citurgia's Citric Acid is exported to USA, Japan, Germany, Australia, Iran, Malaysia, Sri Lanka and other countries.

Citurgia Citric Acid India's No.1

PRANAVA INDUSTRIAL SERVICES PRIVATE LIMITED

Pranava Industrial Services Private Limited are a body of Industrial Consultants specialising in the field of Economic Market and Financial Consultancy Services. It has conducted large number of Market Assessment and Feasibility Studies in India and abroad exclusively on behalf of its valued clients.

In addition to this, it brings out two prestigious Quarterly Journals, 'Industrial Researcher' and 'Corporate Observer' during the months of January, April, July and October each year.

Both the Journals are exclusive in their own aspects in the sense that while Industrial Researcher brings out studies on market economic viability and scope for investment for various industrial ventures, Corporate Observer in a nut shell brings out basic information relating to indigenous production, imports, exports, licensed capacity, assessment of demand and supply position, etc. for various products. Both the Journals are a must for any organisation looking for expansion and diversification of their activities. These journals keep them abreast with the latest information about the product of their interest.

In the light of the vital information covered in both the Journals, subscription to both these Journals, can be a source of indispensable vital information from the point of view of growth and day to-day activities of any forward-looking, dynamic organisation.

The annual subscription rates of both these Journals in India and abroad are as under :

	Annual Inland Subscription	Annual Foreign Subscription
Industrial Researcher	Rs 1,000/-	U S \$ 200/-
Corporate Observer	Rs. 1,000/-	U S \$ 200/-
Combined Subscription for Industrial Researcher and Corporate Observer	Rs. 1,800/-	U S. \$ 300/-
Single issue of Industrial Researcher or Corporate Observer	Rs 500/-	U.S. \$ 50/-

Interested parties are requested to send cheques in favour of '**PRANAVA INDUSTRIAL SERVICES PRIVATE LIMITED**'. For speedy dispatch of Journal, outstation parties are requested to send their payment by Demand Draft.

WINDSOR

THE TRUSTED NAME IN PLASTIC PROCESSING MACHINERY

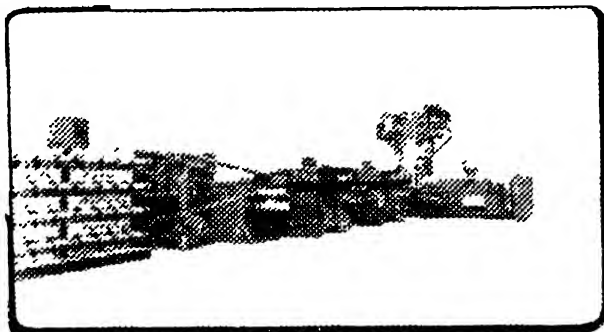

INJECTION MOULDING MACHINE

BLOW MOULDING MACHINE

Whether it is Injection Moulding, Extrusion or Blow Moulding, WINDSOR Machines have a unique record of proven performance. Today, over 4000 Machines made by KLOCKNER WINDSOR INDIA LTD are in operation the world over. And, over the years, WINDSOR (India) has built up a large circle of happy and satisfied clients in India and 29 other countries. Take a look at our production programme.

- * Injection Moulding Machines having locking tonnage from 15 T to 800 T, with 15 gm to 4000 gm Shot Capacity

RAFFIA TAPE PLANT

- * Single screw extruders from 40 mm to 120 mm screw diameters
- * Twin screw extruders
- * Complete extrusion lines for
 - Pipes - RPVC, Soft PVC, HDPE, PP
 - Raffia Tapes - PP, HDPE
 - Blown Films - PP, LDPE, HM, HDPE
 - Monofilaments - PP, HDPE
 - Box Strappings - PP, HDPE
 - Pelletising

Much more than fertilizers A part of your life

The food, vegetables and fruits that you eat and the flowers that you smell owe their sweetness and fragrance to the Sardar fertilizers, so dear to the Indian farmers. But this is only half the truth about GSFC. In fact, GSFC touches the very core of your life. In more ways than one. The fine nylon sarees and the beautiful clothes that you wear, the toughest nylon tyres that run the tractors or transport your goods, come from GSFC's Caprolactam.

The dainty melamine crockery that decorates your shelf, and the lovely laminates of your interior decor and furniture are made from GSFC's Melamine. The fine and strong welding of the stainless steel vessels and equipment and the multi-coloured neon-signs that illuminate the market place owe their glamour to GSFC's Argon

The unsnappable box strappings that firmly grip the heavy packings, the tough crash helmets that protect your life, the light-weight and colourful fan blades that coolly breeze you and your family and the pouches made from the co-extruded film that keep your food fresh and fragrant. Are not these the life-time advantages from GSFC's Nylon-6?

And yet there is something more and deeper GSFC's multipronged services to farmers have its share in the green revolution. And its techno-economic guidance to processors and entrepreneurs has paved the way for a sound industrial growth. For the betterment of millions. Not tomorrow but today.

**GSFC -
Basic to India's Progress.**
